WHOLESALE ONLY—*A new phrase you will find on the front cover of our catalog this year. We think it is worthy of your consideration for it indicates that:*

- 1.) We are NOT actively engaged in the retail nursery business at ANY LEVEL in direct competition to YOUR own retail operation.*
- 2.) We are NOT selling to builders and contractors not entitled to receive wholesale prices.*
- 3.) We are NOT selling to individuals or garden clubs at wholesale, encroaching on YOUR normal retail trade.*
- 4.) We do NOT supply, at wholesale, stock for public housing projects except through legitimate nurserymen.*
- 5.) We do NOT bid against you for ANY planting or landscape jobs of any nature.*
- 6.) We DO maintain a uniform grading and pricing system.*
- 7.) We DO attempt to add to the economic stability of the nursery industry with SOUND business practices.*

PECAN TREES

Every year we have several thousand well developed Pecan Trees available. Each tree is individually priced according to caliper, top development, root structure and overall quality. For that reason it is impossible to make an intelligent listing for this catalog. The majority of the trees are heavily developed stock wholesaling between five and fifteen dollars each—the type that are ideal for retail yard sales. Some of the grafted varieties available are:

↘Burkett	↘San Saba
↘Delmas	↘Stuart
↘Garner	↘Success
↘Mahan	↘Western Schley

Your inspection of these trees during digging season is invited.

Because of the well developed root structures of our Pecan Trees, they transplant extremely well.

LIQUID FERTILIZER

For general plant growth, a balanced mixture, scientifically mixed, blended and cured. Liquid fertilizer is so potent and efficient that a single spoonful will feed a plant for a month. It contains 8% Nitrogen, 8% Phosphoric Acid, 4% Potash, with trace elements necessary for balanced plant growth.

ACIDATE

Not a fertilizer, but a plant conditioner containing minor elements necessary to plant growth. Excellent for counter-acting alkalinity. Acidate assists Liquid Fertilizer and Acid Plant Food by feeding the plants acid which is necessary for good health.

ACID PLANT FOOD

Especially made for use on acid-loving plants. The elements in this liquid product cause acid-loving plants to flower more profusely and aid in producing larger and more beautiful blooms as well as luxuriant foliage, free from chlorosis.

SULFADATE

An excellent soil corrective and conditioner, also in easy to apply liquid form. It aids in complete and continuous use of plant foods by the plant through its chemical conditioning of the soil.

Create customer good-will and added profits for yourself by using and selling these tried and proven products. We are distributors; Dealers wanted — Contact us in regard to securing a dealership for your firm.
